### EDUCATION

#### BACHELORS OF SCIENCE IN COMPUTER SCIENCE

California State University, Fullerton  
Graduated May 2025

- Coursework: Artificial Intelligence, Machine Learning, Web and Software Development.
- Topics included neural networks, supervised/unsupervised learning, and full-stack web development using modern frameworks

### HARD SKILLS

- C++ / C#
- Python
- Java
- Unity
- Git / Github
- Jira and Agile
- Javascript
- React
- Postgres / SQL

### SOFT SKILLS

- Team Collaboration
- Leadership
- Problem Solving
- Adaptability

### PROFILE

Computer Science graduate with experience building C++ and Python applications at Lockheed Martin and developing web projects in academic and personal settings. Skilled in software engineering, version control, and team-based development. Eager to contribute to impactful software and web-based work.

### WORK EXPERIENCE

#### Lockheed Martin Space

MAY - AUGUST 2023

##### Software Engineering Intern

- Developed a C++ software component that simulates a satellite hardware unit, contributing to a production-level system used in spacecraft simulations at Lockheed Martin Space.
- Developed and maintained Python-based automated tests to validate the functionality of the satellite hardware simulation component.
- Wrote clear, maintainable code with thorough documentation, following best practices for quality, modularity, and seamless integration into existing simulation environments.
- Contributed using industry-standard practices, including version control with Git, task tracking with JIRA, and documentation with Confluence, within an Agile team and CI/CD workflow.

#### Palos Verdes Peninsula High School

2021 - 2022 School Year

##### AVID Program Tutor

- Led tutoring sessions in math and science for small student groups (4-6 students)
- Encouraged collaboration and peer-to-peer learning.
- Assisted teachers in student study group placements and evaluated student work.

#### Mathnasium

2019 - 2020

##### Instructor

- Tutored math to 5-12 students from elementary to high school levels.
- Assigned and graded worksheets tailored to individual learning levels.
- Collaborated with staff to optimize instructional support for 40-50 students.

### INDEPENDENT LEARNING & PROJECTS

#### Japanese Language Learning

Studying Japanese daily, currently at an intermediate (N3) level.

#### Personal Portfolio

Completed and Ongoing projects are on display at my portfolio website: [jaredmori.dev](https://jaredmori.dev)
